

January 2022      I.D.L. - I.L.T. software version      [www.idlsoftware.it](http://www.idlsoftware.it)

Version VIRTUALBOX : 6.1.16 – 2020 -----> **Update it only if requested below**

**File: IDLXPMIO.ova – Version IDL 8.40 January 31, 2022.**

Files CORSE.MDB and CORSETA.MDB -----> Folder C:ACCESS

File: CORSE.MDB version 8.40 31-1-2022 ----> **Update only if > than 8.40**

File: CORSETA.MDB -----> **Update it only if requested below**

**Video: how to change the software version -----> Download file : CORSE.MDB**

**Video: Import Pilots GT - A.C.I. 2023**

**Important: To copy and paste from the official timing website use the free Firefox browser:  
[https://www.mozilla.org/it/firefox/new/?redirect\\_source=firefox-com](https://www.mozilla.org/it/firefox/new/?redirect_source=firefox-com)  
Microsoft Edge is missing some features.**

---

### **Update CORSE.MDB release 8.40 - January 31, 2022.**

--- New releases ---      Email : [oscardemicheli@gmail.com](mailto:oscardemicheli@gmail.com)

**8.40 - May 31, 2022      Bug fixes.**

Color evidence form program.  
Improved times entry form with new functions.  
Added best S1234 and Time pilots names .

**8.43 - June 30, 2022      Bug fixes.**

Eliminate lap from timekeepers.  
I.L.T. function modified : with copy / paste and real time  
and manual time entry.

**8.45 - August 3, 2022      Bug fixes.**

Difference management on the fourth sector.  
IDL new function My chrono.  
IDL-ILT automatic acquisition of position and names of best pilots  
S1-S2-S3-S4.  
Use of copy and paste times without using the keyboard (only with  
mouse).  
Improved the function of inserting best times.  
IDL-realtime video web page example of automatic time  
acquisition.

**8.46 - August 25, 2022      Bug fixes.**

Opens and closes My chrono function automatically.  
Check and modify times if canceled -C- Perugia timing.  
Ready real-time time acquisition function already  
requested to Perugia timing.

**8.51 - march 9, 2023**

**Bug fixes.**

**IDL - Improved many forms with more content.**

**ILT - Improved many forms with more content:**

**New features taken from I.L.T. :**

**Complete Setup.**

**Complete management of 18 sets of tyres.**

**Text notepads for each track.**

**Management of elapsed time between laps.**

**Chrono management to take the lap time with chrono creation in case of timing system failure.**

**Automatic management with separate S3 and S4 differences.**

**Create job list for mechanics in PDF.**

**8.52 - april 6, 2023**

**Bug fixes.**

**Modify the entry of tire temperatures.**

**Modifications on exchange of spare parts.**

**8.53 - may 4, 2023**

**Bug fixes.**

**New 'IDL info' feature.**

**Set tires and pressures.**

**Fuel and Laps.**

**Predisposition for the 5th sector.**

**Mychrono: creates files for importing into Excel.**

**Improved acquisition of official timed times with copy/paste.**

**8.55 August 31, 2023**

**Bug fixes.**

**Attention, the ILT function has been removed from version 8.55, if you want to continue using this function use a version earlier than 8.55. You can copy the .PDF files generated by ILT to a folder under IDLXP10 and then switch to feature 8.55 which will only use the IDL feature.**

**New 'Official' function to automatically create the files to insert with copy/paste the Official data.**

**New 'Session' function to automatically create files containing all the data on the timetables entered with the functions: manual copy/paste in real time, to be used as 'excel' sheets.**

**Creation of a list of all the sessions done by the Team, with the following references: date/time, track, session type, pilot, best pilot times and overall, this text file will be used to create an App on smartphone from which you can consult all**

sessions done with IDL software.

Now the IDL software works perfectly with 3-4-5 sectors and also with the real time of the official timing service. All these files are in the folder :

?:\IDLXP10\APHONEIDL

We will see later how to make an APP for iPhone and Android, importing all the files necessary for consulting all the driver sessions and times on smartphones.

[Video version 8.55](#)

[Video IDL data on Smartphone](#)

New BACKUP function inside 'RESULTS', which copies the C:\ACCESS folder on IDLXP10 of Windows 10/11. With this function, the IDLXP10 folder contains all the IDL backup data to be taken to your CLOUD.

[Video Backup IDL](#)

#### **8.56 November 9, 2023 Bug fixes.**

Protocol for the automatic storage of times recorded by the various official timing services.

Management of automatic real time with 3-4-5 sectors in hundredths and thousandths.

[Pdf for the creation of an automatic Real Time](#)

[VIDEO VERSION 8.56](#)

New function to modify the best times of the 3-4-5 sectors with thousandths.

[Video IDL-2024](#)

[Video WHATSAPP](#)

#### **8.60 January 22, 2024 Bug fixes.**

2 new manual time entry features.

PROTOCOL.IDL file for automatic real time demo testing (option A) this file can also be modified during a session, the file must be inserted in the IDLXP10/IDL folder on the Windows 10/11 desktop.

Small changes to the display on some forms.

**NOTE:** Just for some small errors, IDL does not change the version number, but only changes the version date.

**At the end of the website page: [www.idlsoftware.it](http://www.idlsoftware.it), in addition to the version number, the date of the last update is also displayed.**

**If the date is different from the one shown on the site, download the CORSE.mdb version of the program again, to correct the small and trivial errors found previously.**
